Local Chapters are not authorized to speak for the Society.

Hello Everyone!

Welcome to ASPE Year 2026-2027! I hope everyone enjoyed their summer break. Your ASPE Board has been hard at work planning an Amazing year for you!

This year, marks the 25th Anniversary of 9/11! There is so much to say about that day. It was a day that changed history, that changed the lives of every American. We will never forget the lives that were lost and the heroes that came forward that day! Please take a moment to honor the victims, survivors and the first responders. United we stand, then and now!

We have our first technical meeting on September 22, 2026 at our new location. Social hour starts at 5:30pm. Following our technical meeting, we have our long awaited Hands-on piping workshop on September 26, 2026. Sign up today on our website!

Around the corner will be ASPE 2026 Convention & Expo in Oklahoma City. I'm so excited! I can't wait, it going to be such a good time. You're not going to want to miss it! At the Convention/Expo it is not only an opportunity to learn and network but you get to be around the most amazing, funny group of people that you will ever meet!

Convention will be from Oct 8th-14th and the Expo Oct 12-13th. See [www.ASPE.org](http://www.ASPE.org) for more information!

Please feel free to reach out if you have any questions about Memberships, logging in as a member, technical meeting and events.

If you are interested in presenting a CEU presentation to ASPE Central Florida. Please contact Henry Scott at [Henry.Scott@wsp.com](mailto:Henry.Scott@wsp.com)

2. High Purity Water
3. Stainless Steel DWV push-fit
4. PEX
5. Cast iron no-hub and gasketed, with a discussion on lead and oakum
6. PVC and CPVC solvent weld
7. CPVC flanged connections
8. CSST
9. Roll grooved piping

## Companies Presenting

Register at [www.cf-aspe.com](http://www.cf-aspe.com) today as space is limited!

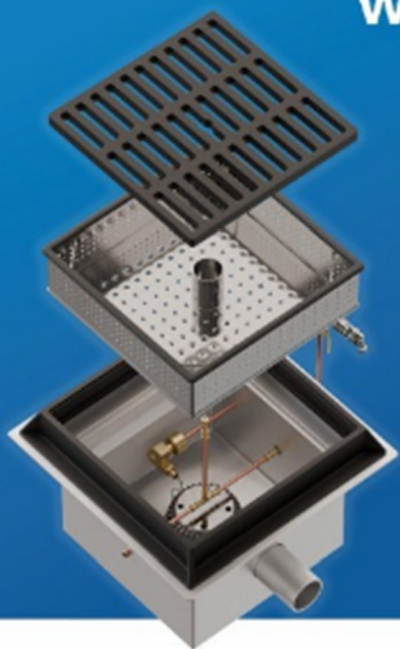

# WASTEWATER DIVERSION SYSTEMS, INC.

## WDS ON DEMAND

Over 45 years Experience | 100% American-Owned and Operated

### WDS DEMAND DRIVEN WASH DOWN WITH CAN WASH

Trash can wash out CANNOT go to the stormwater. It must be contained and sent to the sewer. WDS solved the problem by incorporating our can wash into our wash-down systems.

Trash cans are clean & wash pads are clean because our lead-free diversion valve opens with water use to send all wash water to the sewer. When the wash is finished, the diversion valve automatically closes, sealing the sewer & directing clean rainwater to the storm drain.

WDS uses American made materials from American companies to build an American made product.

### Model WDS-WDTS4X4CW

Suitable for but not limited to the following uses:

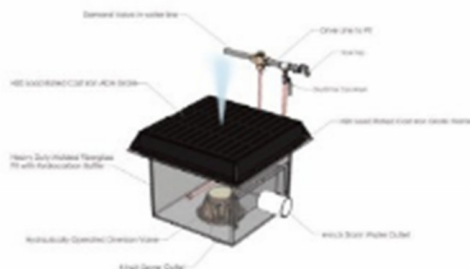

Airport Wash Sites, Container Wash Bays, Dog Kennels and Dog Parks, Emergency, Pool, Deck and Beach Showers, Fast Food, and all Trash Bin Locations, Fire Truck Wash Down, Trash Can Wash Down, Loading Docks, Marinas, Military Equipment Wash Pads, Rental Car Locations, Schools Food and Trash Bin Areas and other Unroofed Wash Pads.

Complies with CA Prop 65

Specs and drawings available at [eeeusa.net](http://eeeusa.net)

USPMO IGC 234 2016  
File Number 16834

Made in AMERICA
